USE VARIANCES:

1. The Zoning Board of Appeals, upon appeal from the decision of determination of the administrative official charged with the enforcement of this Local Law shall have the power to grant use variances. Use variances are defined as the authorization by the Zoning Board of Appeals for the use of land for a purpose which is otherwise not allowed or is prohibited by this Zoning Local Law.
2. No such use variance shall be granted by the Board of Appeals without a showing by the applicant that this Zoning Local Law has caused an unnecessary hardship(s). In order to prove such unnecessary hardship(s), the applicant shall demonstrate to the Board of Appeals:
 - a. that for each and every permitted use under this Zoning Local Law for the particular district where the property is located, the applicant cannot realize a reasonable return, provided that lack of return is substantial as demonstrated by competent financial evidence;
 - b. that the alleged hardship relating to the property in question is unique, and does not apply to a substantial portion of the district or neighborhood;
 - c. that the requested use variance, if granted, will not alter the essential character of the neighborhood and the health, safety, and welfare of the community;
 - d. that the alleged hardship has not been self-created.
3. The Board of Appeals, in the granting of use variances, shall grant the minimum variance that it shall deem necessary and adequate to address the unnecessary hardship proven by the applicant and at the same time preserve and protect the character of the neighborhood and the health, safety, and welfare of the community.

AREA VARIANCES:

1. The Zoning Board of Appeals shall have the power, upon an appeal from a decision or determination of the administrative official charged with the enforcement of this Local Law to grant area variances. Area variances are defined as the authorization by the Zoning Board of Appeals for the use of land in a manner which is not allowed by the dimensional or physical requirements of this Zoning Local Law.
2. In making its determination, the Zoning Board of Appeals shall take into consideration the benefit to the applicant if the variance is granted, as weighed against the detriment to the health, safety, and welfare of the neighborhood or community by such grant. In making such determination, the Board shall also consider:

- a. Whether an undesirable change will be produced in the character of the neighborhood or a detriment to nearby properties will be created by the granting of the area variance;
 - b. Whether the benefit sought by the applicant can be achieved by some method feasible for the applicant to pursue, other than an area variance;
 - c. Whether the requested area variance is substantial;
 - d. Whether the proposed variance will have an adverse effect or impact on the physical or environmental conditions in the neighborhood or district; and
 - e. Whether the alleged difficulty was self-created, which consideration shall be relevant to the decision of the Board of Appeals, but shall not necessarily preclude the granting of the area variance.
3. The Board of Appeals, in the granting of area variances, shall grant the minimum variance that it shall deem necessary and at the same time preserve and protect the character of the neighborhood and the health, safety, and welfare of the community.

The Board of Appeals, in the granting of both use variances and area variances, shall have the authority to impose such reasonable conditions and restrictions as are directly related and incidental to the proposed use of the property. Such conditions shall be consistent with the spirit and intent of the Zoning Local Law, and shall be imposed for the purpose of minimizing any adverse impact such variance may have on the neighborhood or community.

Jurisdiction of Adirondack Park Agency:

1. The following variances shall be subject to Agency review pursuant to section 808(3) of the Adirondack Park Agency Act, if outside Hamlet areas:
 - a. Variances from local shoreline restrictions;
 - b. Variances from the local controls governing intensity of development, such as minimum lot areas;
 - c. Variances from use restrictions which would allow a use other than those on the classification of compatible use lists in the Adirondack Park Agency Act for the official map land use area in which it would be located; and
 - d. Any other variances which involve the provisions of the land use and development plan, except for front, side, or rear yards not involving shoreline.
